

# Making social business happen

Initial thoughts on a potential collaboration

January 2011

### **Executive summary**

### What is social business?

- The concept of social business has been developed by Nobel Peace Laureate and founder of Grameen Bank Prof.
   Muhammad Yunus and represents the cutting-edge idea of market-based solutions to social problems
- A social business is a non-loss, non-dividend company with the purpose of solving a social problem. It unites the
  dynamism of traditional business with the social conscience of charity

### Why is social business relevant to you?

- Social business enables companies to address society's most pressing needs in an effective and sustainable manner,
   allowing you to combine your core strengths with acting as a good corporate citizen
- In addition, social business provides **various tangible benefits** to companies, ranging from its positive impact on the corporate image and organizational culture to access to new markets as well as innovations

### How can you get involved with social business?

- You can address any social issue that you feel passionate about or that is relevant to you (e.g. in light of your CSR strategy, core competencies etc.)
- Depending on your commitment, there are various levels of involvement, all the way up to setting up a new social business in your area of expertise

### How can The Grameen Creative Lab (GCL) help you make social business happen?

- As a professional service provider in the area of social business, the GCL team is experienced in developing social business ideas and implementing them jointly with you
- We offer a broad range of services to corporate clients all over the world and are looking forward to having further discussions with you

# Muhammad Yunus' vision Using business methods to solve social problems

"I am proposing to create another kind of business, based on selflessness that is in all of us. I am calling it social business."

Prof. Muhammad Yunus
Nobel Peace Prize Laureate
Inventor of microfinance
Founder of the Grameen Bank
Initiator of the idea of social business

# A social business is a non-loss, non-dividend company with the purpose of solving a social problem

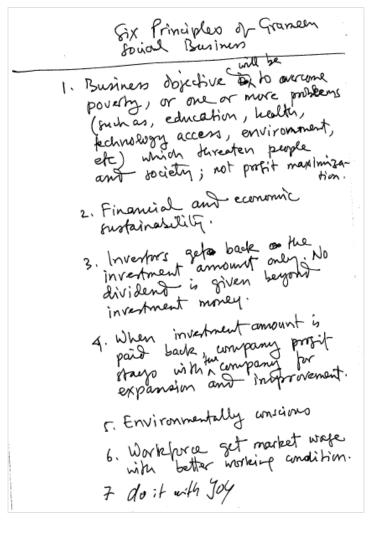

"Social business unites the dynamism of traditional business with the social conscience of charity" - *Prof. Yunus* 

# Social businesses follow seven principles

The principles of social business defined by Prof. Yunus

- Business objective will be to overcome poverty, or one or more problems (such as education, health, technology access, and environment) which threaten people and society; not profit maximization
- 2. Financial and economic sustainability
- Investors get back their investment amount only. No dividend is given beyond investment money
- When investment amount is paid back, company profit stays with the company for expansion and improvement
- 5. **Environmentally conscious**
- 6. Workforce gets market wage with better working conditions
- 7. ...do it with joy

# Social business: Operating as a business, but pursuing social goals

In principle, social businesses can help address all or most social issues

### ... but has all characteristics of a regular business

- 1 Clear vision and mission statement as well as a consistent and actionable strategy with measurable goals
- 2 Sustainable business model with well-defined customer segments, distribution channels, revenue streams and value proposition
- 3 Striving for effectiveness and efficiency to achieve managerial and operational excellence
- 4 Typically incorporated as a limited company or another **legal form** with well-defined ownership rights

**But remember**: Any profit from the company's activities is to remain in the company and may not be paid out to investors as a dividend

Case studies

# Social business enables companies to address society's most pressing needs in an effective and sustainable manner

Almost half the world live on less than 2.50\$ a day

Hunger

Poverty

>900 M people are undernourished

Lack of clean water

~900 M people have no access to safe drinking water

Lack of healthcare

1 B people lack access to health care systems

Lack of energy

1.6 B people have no access to electricity

...

# ... that companies feel committed to help address ...

- Striving to be good corporate citizens, companies have a responsibility to contribute to the greater good
  - Companies form an integral and influential part of our societies
  - As such, they need to look and act beyond their pure self-interest
- Most companies genuinely want to act upon this responsibility
  - Helping others and acting for selfless reasons is part of our human nature
  - Therefore, we have a desire both individually and collectively to
     make a difference in the world

# ... and social business is a cutting-edge concept

Social business allows companies ...

- to combine their business knowhow with social impact
- to create social value while operating closely to their strategic core
  - By setting up a SB¹ in its area of expertise, a company can leverage its core competencies
  - SB is also a way to act upon a company's CSR strategy
- to address social issues in a sustainable and effective manner
  - —SB only requires a one-time investment (vs. regular donations)
  - —SB has proven to be effective in the long-term (e.g. Grameen Bank)

THE GRAMEEN CREATIVE LAB

# However, despite the non-dividend policy, social business has also proven to provide various tangible benefits to companies

1

### Impact on organizational culture

- Provides source of motivation and identification for employees
- Thereby, both employee retention and recruiting of new talents is facilitated

- Idea: Produce an affordable and effective mosquito net to prevent malaria and similar diseases
- BASF has experienced an unprecedented HR impact (e.g. rise in applications etc.)

2

### Access to new markets

- Gaining first mover advantages (e.g. brand awareness) in emerging markets
- Developing new markets by gaining customer insight of new target groups

GROUP

- Idea: Produce affordable highquality footware for the poor to prevent infection with hookworm
- In doing so, adidas has entered the Bangladeshi market where they have no other activities

3

### Social business as a source of innovations

- Product innovations due to facing previously unmet customer needs
- Business model innovation due to a different approach to solving problems

- Idea: Producing an affordable yoghurt for the poor to address the issue of malnutrition
- Danone has learned to set up and profitably run small-scale yoghurt factories

. .

### Impact on corporate image and brand perception

- Improve company's footprint as a responsible corporate citizen
- Position yourself at the forefront of a truly sustainable CSR concept

- Idea: Set up the textile company of the future with superior working conditions
- Companies can only be successful in the long run if they act responsibly", Michael Otto
